

## View or Edit User Role Permissions

Last Modified on 03.26.26

To view or edit the permissions associated with a Recast role:

1. Under **Recast Roles**, click **Permissions** to the right of the role.

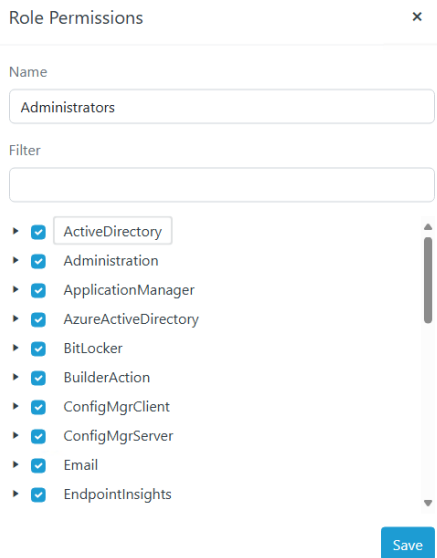

### Recast Roles

The screenshot shows a table titled "Recast Roles" with a "Create" button in the top right corner. The table has two columns: "Name" and "Actions". The "Name" column lists eight roles: Administrators, Read Site, LAPS, ReadOnly, RemoteSoftwareCenter, ContentDistributionMonitorDashboard, User, and SI Pre. The "Actions" column for each role contains three buttons: "Rename", "Permissions", and "Delete". Below the table is a pagination control showing "1" of 8 items.

Name	Actions
Administrators	Rename Permissions Delete
Read Site	Rename Permissions Delete
LAPS	Rename Permissions Delete
ReadOnly	Rename Permissions Delete
RemoteSoftwareCenter	Rename Permissions Delete
ContentDistributionMonitorDashboard	Rename Permissions Delete
User	Rename Permissions Delete
SI Pre	Rename Permissions Delete

2. In the **Role Permissions** window that opens, expand categories to view or edit individual permissions.

The screenshot shows a "Role Permissions" window with a close button (X) in the top right corner. The window has a "Name" field containing "Administrators" and a "Filter" field. Below the filter is a list of permissions, each with a checkmark and a right-pointing arrow. The permissions listed are: ActiveDirectory, Administration, ApplicationManager, AzureActiveDirectory, BitLocker, BuilderAction, ConfigMgrClient, ConfigMgrServer, Email, and EndpointInsights. A "Save" button is located at the bottom right of the window.

Role Permissions

Name: Administrators

Filter:

- ActiveDirectory
- Administration
- ApplicationManager
- AzureActiveDirectory
- BitLocker
- BuilderAction
- ConfigMgrClient
- ConfigMgrServer
- Email
- EndpointInsights

Save

See [Custom Role Templates for Right Click Tools](#) for a complete list of permissions granted by Read Only, Remote Software Center, and Content Distribution Monitor Dashboard roles.
