RECAST SOFTWARE

Graph API Permissions for Right Click Tools

Before you can run Right Click Tools that require a service connection to Entra ID, you'll need to register the application with Microsoft and add the required Graph API permissions.

Register the Right Click Tools Console Extension with Microsoft

To register the Right Click Tools console extension with Microsoft:

1. Log into https://portal.azure.com using your Azure credentials with full admin rights.

2. Search for **App registrations**.

3. On the **App registrations** page, click **New registration**.

4. Give the application a meaningful display **Name**.

5. As the **Supported account type**, select **Accounts in any organizational directory (Any Microsoft Entra ID tenant - Multitenant).**

6. Click **Register**.

7. In the **Overview** pane that opens, copy the **Application (client) ID** and **Directory (tenant) ID** as you will need to enter these later in your Recast Management Server.

Configure a Platform

To add a platform in the Microsoft Azure portal:

1. On the Azure portal **App registrations** page, under **Manage**, click **Authentication**.

2. Under **Platform Configurations**, select **Add a platform**.

3. Under **Configure platforms**, select **Mobile and desktop applications**.

4. Under **Redirect URIs**, add a custom URI with your App ID in the name: `ms-appx-web://microsoft.aad.brokerplugin/<Your-App-ID>`

5. Click **Configure** to add the platform.

6. Under **Advanced Settings**, toggle **Enable the following mobile and desktop flows:** to **Yes** and click to **Save** this configuration.

Add Graph API Permissions

To add Microsoft Graph API permissions:

1. On the **App registrations** page, under **Manage**, click **API Permissions**.

2. Select **Add a permission**.

3. Add required permissions for the specific Right Click Tools action you want to use. You can find the permissions needed for each tool listed on its page.

4. Once the required permissions are added, click **Grant admin consent for [Tenant Name]**.
