Access Right Click Tools for Intune in Other Interfaces

Last Modified on 10.14.25

While Recast's browser extension is titled Right Click Tools for Intune, it doesn't limit you to running Right Click Tools via the Intune interface. With Right Click Tools and the browser extension installed, you can run actions from many other web tools, such as SSRS and ServiceNow.

To run a Right Click Tools action from another interface:

1. Highlight a device name.

2. Right-click to open your familiar Right Click Tools menus.

To learn more, see John Yoakum's blog post, Right Click Tools Browser Extension: Beyond Intune.
