

View and Search the Application Catalog in Configuration Manager

Last Modified on 03.13.26

All Right Click Tools Enterprise customers and Community users can see and search the entire catalog of applications that can be deployed and updated using Right Click Tools Patching. Use the Catalog Search feature in your Configuration Manager console to explore the 6000+ applications in the catalog or to quickly check that a specific application is available to deploy and/or update with RCT Patching.

NOTES:

- You do not require a Patching license to view and search the full application catalog.
- This feature requires outbound access to the application catalog at <https://amprod02.recastsoftware.com>.
- This feature is available in Recast Software Version 5.11.2509.1603 or later.
- Each column is sortable and all catalog information is searchable.

To locate the Patching Catalog in Configuration Manager:

1. Navigate to **Assets and Compliance > Overview > Devices**.
2. Right-click on a device and select **Patching > Catalog Search**.

The screenshot shows the 'Right Click Tools Patching' application window. On the left, there is a sidebar with 'RCT Patching Catalog' selected, along with 'Device Compliance' and 'App Compliance' options. The main area displays a search results table for 'Microsoft'. The table has columns for Vendor, Application, Last Update, Latest Available Version, Architecture, Supported Integrations, Language, Latest Version Id, and Is Custom Application. The results list various Microsoft products such as Windows Defender Antivirus updates, Microsoft Edge Beta, Microsoft Edge WebView2 Runtime, Microsoft Advertising Editor, Visual Studio Code, and Visual Studio 2022 Enterprise.

Vendor	Application	Last Update	Latest Available Version	Architecture	Supported Integrations	Language	Latest Version Id	Is Custom Application
Microsoft	Definition updates for Windows Defender Antivirus (x64)	12/12/2025 3:04:32 PM	1.443.65.0	X64	ConfigMgr, Intune, WSUS	en-US	f169292-f224-41f3-1129-378e6306940	False

The Patching Catalog displays the following application information:

- Vendor
- Application name
- Last Update date
- Latest Available Version number
- Architecture
- Supported Integrations (Configuration Manager, Intune, WSUS)
- Language
- Latest Version ID
- Custom Application (True/False)
