What's New in Right Click Tools

Last Modified on 02.18.26

We're continually developing new features for Right Click Tools, many of which originate with ideas and requests from our Enterprise customers and Community users.

> **Curious about what's next for Right Click Tools?**
>
> Check out the Recast Product Roadmap.
> On the same page, you'll find the Feature Requests section where you can add and upvote product ideas.

Right Click Tools features delivered within the last year:

Retrieve LAPS Passwords from Active Directory and Entra with One Tool You can now view and copy Local Administrator Password Solution (LAPS) passwords from Active Directory and/or Entra using a single Right Click Tool. For the how-to, see Retrieve All LAPS Passwords. Minimum Recast Software Version: 5.11.2602.1808, Minimum browser extension version: 2.0.0.10.

Find That Right Click Tool Faster: Right Click Tools menus now display a representative icon for each action, adding visual clarity that helps you home right in on the right Right Click Tool. Minimum Recast Software Version: 5.11.2602.1808, Minimum browser extension version: 2.0.0.10.

Enhancements to Classic Right Click Tools
- **System Information**: Enable & disable devices on the Drivers tab.
- **Remote Windows Security:** View the BIOS Version on the Firmware tab.
- **Schedule Shutdown / Restart**: Add a custom message that will be displayed to end users ahead of a scheduled shutdown/restart.

   Minimum Recast Software Version: 5.11.2602.1808, Minimum browser extension version: 2.0.0.10.

A Better Recast Builder Experience: We've updated the Recast Builder interface to make automation easier.

   Highlights:
- Collapsible Builder Actions, Recast Actions, and Item Properties panels expand the workflow canvas
- Import and export functions in the Builder Actions panel
- Tooltip descriptions of pre-built workflows
- Quick Links to the Recast Help Center and Community Recast Automation Repository
- Alphabetically sorted categories and improved search capabilities in the Recast Actions panel
- Ability to expand working area in the Item Properties panel (useful when developing scripts)
- Updated font choices and a simplified color palette
- Plus, canvas layouts that save as they should!

   Minimum Recast Software Version: 5.11.2602.1808

Windows Autopilot Actions

- Register Device(s) in Autopilot – Minimum Recast Software Version: 5.11.2601.1504, Minimum browser extension version: 2.0.0.9
- Add/Edit Group Tags in Autopilot – Minimum Recast Software Version: 5.11.2512.1807, Minimum browser extension version: 2.0.0.8
- Remove Device(s) from Autopilot – Minimum Recast Software Version: 5.11.2510.2904, Minimum browser extension version: 2.0.0.7

Run Recast's Intune-Focused Tools on Multiple Devices at Once: Multi-select devices in Intune before running actions, including the Delete Devices from Intune/Azure, Add Devices to an Entra Group, and Sync Intune App and Compliance Policy tools. Minimum Recast Software Version: 5.11.2509.1603 for the new Intune-specific tools, 5.10.2506.1707 for existing tools

New Entra ID- and Intune-Specific Tools
- Delete Devices from Entra and/or Intune
- Sync Intune App and Compliance Policy
- Add Devices to an Entra Group

    Minimum Recast Software Version: 5.10.2508.1302, Minimum browser extension version: 2.0.0.6

Support for GCC High Environments in Intune: You can now run Right Click Tools in GCC High environments using the Right Click Tools for Intune browser extension. Minimum Recast Software Version: 5.10.2508.1302, minimum browser extension version: 2.0.0.6

New Right Click Tools
- Retrieve All BitLocker Keys: Search all your configured BitLocker recovery key locations with a single Enterprise tool
- Get User Profile Size: View user profile sizes so you can identify those worth removing to regain space
- Disable or Enable Devices in Active Directory: A less-permanent alternative to deleting devices you may need to re-enable later
- View Disk Space Details: See where a shortage of free disk space might cause software deployment or patching issues
- Open Event Viewer: Access a remote Windows Event Viewer session straight from your Console Tools

    Minimum Recast Software Version: 5.9.2505.2307

Easier Agent Management, Re-enrollment & Cleanup: The new **Agent Management web dashboard** uncomplicates the task of overseeing communications between your agents and Recast Management Server. Find out when an agent last connected to an agent gateway, and the specific gateway to which an agent connects, to pinpoint connectivity issues. To learn more, see Agent Management Dashboard. You'll also find agent connection details on the Recast Agents page, where you'll now see faster page loading speeds when there are many agents. Behind the scenes, we've added automatic agent re-enrollment, as well as an agent cleanup process that automatically removes inactive and duplicate agents, which means less time spent manually managing agents that fail to communicate with RMS. Minimum Recast Software Version: 5.9.2505.2307

Run Right Click Tools on a Device with no Configuration Manager Console: Install Right Click Tools, add the Right Click Tools browser extension, and run actions from within the Intune Admin Center—from a device with no Configuration Manager console installed. See Install Right Click Tools Console Extension. Minimum Recast Software Version: 5.9.2503.1805

Right Click Tools for Intune Browser Extension: This add-on, available for Microsoft Edge and Google Chrome, integrates seamlessly with the Right Click Tools Enterprise or Community Edition, enabling you to run familiar Right Click Tools from within other interfaces, such as the Microsoft Intune Admin Center.

To learn more:
- Install Browser Extension for Right Click Tools Enterprise Edition
- Install Browser Extension for Right Click Tools Community Edition
- Access Right Click Tools in Intune

Recast

Minimum Recast Software Version: 5.8.2501.1406 for Edge, 5.9.2502.2105 for Chrome
