Remove Device(s) from Autopilot

Last Modified on 12.15.25

Use the **Delete Device(s) From Autopilot** tool to remove one or more devices that are detected in Windows Autopilot.

Prerequisites

- Right Click Tools for Intune browser extension version 2.0.0.7, if accessing this functionality via Intune

To run the tool:

1. Right-click on one or more devices.

2. Select **Right Click Tools** > **Console Tools** > **Delete Device(s) from Autopilot**.

3. Confirm the deletion.
