

Insights reports not returning data

Last Modified on 10.29.25

Version [5.11.2510.2904](#) resolves an issue that was preventing Right Click Tools Insights reports from returning data for devices with a Recast Agent. Insights warranty reports were not impacted. We recommend that Right Click Tools Insights customers skip version 5.11.2510.1301 and update their Recast Agents to version 5.11.2510.2904.
