

## Connect Browser Extension to Recast Management Server

Last Modified on 11.12.25

Make the most of the Right Click Tools for Intune browser extension by connecting it to your Recast Management Server.

To connect the browser extension to RMS:

1. In your browser toolbar, click the Recast icon.

2. Click Configure.

3. On the Right Click Tools Configuration page that opens, enter the RMS Server URL, including https:// at the beginning. Click Save.

The Current Status should show as 'Connected'.
