

Graph API Permissions for Privileged Access

Last Modified on 11.27.25

Set up the following Application permissions in the Microsoft Graph API to access all Right Click Tools Privileged Access features:

Application permissions

- Device.Read.All
- GroupMember.Read.All
- User.Read.All

For instructions on adding API permissions, see [Set Up Entra ID for Privileged Access](#).

For the full list of Graph API permissions required for features in the Right Click Tools suite, see [API Permissions by Product/Add-On](#).
