

Graph API Permissions for Privileged Access

Last Modified on 11.24.25

Set up the following Application permissions in the Graph API to access all Right Click Tools Privileged Access features:

Application permissions

- Device.Read.All
- GroupMember.Read.All
- User.Read.All

For instructions, see Set Up Entra ID for Privileged Access.

For the full list of Graph API permissions required for features in the Right Click Tools suite, see API Permissions by
Product/Add-On.
