

## Client Information Permissions

Last Modified on 12.22.25

### Recast Permissions

Plugin	Permissions
ConfigMgrClient	ChangeCacheSize ClearCache ClientInformation RemoveItemsFromCache
ConfigMgrServer	GetDistributedSoftwareUpdates

### Microsoft Permissions

For Change Cache Size:

- This action requires Administrator permissions on the remote device.
- If a Recast Server is being used with a Service Account, that account also needs admin permission on the remote device.
- This action requires Remote WMI access.

The Clear Cache action also requires access to connect to the C\$ share.
