Recast

Hostname

Last Modified on 2026-09-24

The *Hostname* does not filter devices, but rather users based on the fully qualified DNS used to access the corresponding Liquit zone. The filter can be used to apply different configurations, look and feel or even variables.

General	
Type	*Hostname*
Compare	*Equal, Not Equal, Contains, Doesn't contain, Starts with, Ends with*
Value	Value to match against the hostname that is used to access Application Workspace

Agent
It is available on devices with or without an Agent running.
