

## Process Insights

Last Modified on 04.16.26

This task optimizes the statistics database, by keeping only the most important details in the case of old statistics, in order to reduce their size inside database.

Disabling this scheduled task will cause the statistics table inside database to grow uncontrollable. We therefore do not recommend disabling this task.

For more information about the **Overview**, **Notifications**, **Schedule** and **History** screens, see [Scheduled tasks](#).
