

## Refresh zone licenses

Last Modified on 04.16.26

This task refreshes zone licenses and you get notified when a license is updated or requires an upcoming renewal. Updated licenses will automatically be installed.

During the refresh of zone licenses, an updated report is also generated and is accessible in **Manage > System > Licensing**. To learn more about this report, see [Licensing](#).

For more information about the **Overview**, **Notifications**, **Schedule** and **History** screens, see [Scheduled tasks](#).
