Login Settings

Last Modified on 2026-09-28

Use these settings to configure the look and feel of the login screen.

Background section

Color – The login screen's background color.
Transparency – The transparency level of the color you choose for the background. Move the slider from left (100% transparency) to right (0% transparency).
Image – Add your own custom background image to the login screen. By default, a predefined image is used.

Information section

When enabled, the custom message you enter will appear at the top of the login screen.

Reset section

When enabled, the following link appears near the bottom of the login screen: *'Click here to reset your password'*

URL – Enter the password reset server URL.

Support section

When enabled, the following link appears near the bottom of the login screen: *'Having trouble? Click here to contact support'.*

URL – Enter the support server URL.

Website section

When enabled, the following link appears in the lower half of the login screen: *Website*

URL – Enter the URL for your organization's website.
