

## Login Settings

Last Modified on 04.16.26

Configure the look and feel of the login screen.

### Background section

**Color** – The color of the login screen background.

**Transparency** – The grade of transparency of the color you choose for the background. Move the slider from left (100% transparency) to right (0% transparency) to adjust the transparency;

**Image** – Allows you to add your own custom background image to the login screen. By default, a predefined image is used.

### Information section

If enabled, you can add a personalised message to the login screen, that will be displayed in its upper part.

### Reset section

If enabled, the following link is displayed in the lower part of the login screen: *Click here to reset your password*

In the **URL** field, enter the URL of the password reset server.

### Support section

If enabled, the following link is displayed in the lower part of the login screen: *Having trouble? Click here to contact support.*

In the **URL** field, enter the URL of the support server.

### Website section

If enabled, the following link is displayed in the lower part of the login screen: *Website*

In the **URL** field, enter the URL of your company's website.
