

Cisco Jabber

Last Modified on 04.16.26

If you want to create an application for Cisco Jabber there are some extra steps you have to take.

Prerequisites

- To download the MSI installer, you must Log In to your Cisco account and have a valid service contract associated with your Cisco.com profile.
- Download the MSI installer from [the Cisco Software Download webpage](#).

Application Workspace Setup Store Configuration Wizard

We've included a configuration wizard which prompts you for several additional options:

Configure [X]

Options | Add or Remove Programs | Public Properties

Remove all Desktop and/or Start Menu shortcuts

Suppress reboots

Launch after install

Save Cancel

Configure [X]

Options | Add or Remove Programs | Public Properties

ARP no modify

ARP url info about

http://www.cisco.com/

AllUsers

2

[Click here to read more about this property](#)

Save Cancel

Configure [X]

Options | Add or Remove Programs | Public Properties

Install directory

Target directory

Save Cancel
