

GroupWise 2018

Last Modified on 2026-05-21

If you want to create an application for Novell Groupwise 2018, you can download it in the Setup Store. Then, right-click and choose 'New Application'.

Prerequisites

- Visual C++ 2008 Redistributable x86
- Visual C++ 2012 Redistributable x86
- Visual C++ 2013 Redistributable x86
- Visual C++ 2015 Redistributable x86
- wses3.msi (Microsoft WSE 3.0 Runtime)
- msxml.msi

Application Workspace Setup Store Configuration Wizard

We've included a configuration wizard which prompts you for several additional options:

The screenshot shows the 'Configure' dialog box for the Application Workspace Setup Store Configuration Wizard. The dialog has a blue header with the title 'Configure' and a close button. Below the header are five tabs: 'Options', 'Add or Remove Programs', 'Language', 'Integration', and 'Release notes'. The 'Options' tab is selected. The dialog contains several input fields and a dropdown menu:

- Comments:** A text input field.
- Contact:** A text input field.
- HelpLink:** A text input field.
- URLInfoAbout:** A text input field.
- AllUsers:** A dropdown menu with the value 'ALLUSERS=<empty>'.

At the bottom of the dialog, there are two buttons: 'Save' and 'Cancel'. A link below the 'AllUsers' dropdown reads: 'Click here to read more about this property'.
