

## S&P Capital IQ Pro Office

Last Modified on 04.16.26

To be able to install S&P Capital IQ Pro Office, there are some prerequisites and system requirements.

There has to be a version of Microsoft Office installed. The documentation on the site states this:

Office 2016 (64-bit), 2019 (64-bit), 2021 (64-bit), Office 365 (2016 & 2019 & 2021: local installs only; excludes web based or MS App Store versions).

We've also tested it with Microsoft 365 Apps.

For more information, check [this link](#).
