

WinZip

Last Modified on 04.16.26

Setup Commander

The MSIs for WinZip can be downloaded from the Application Workspace Setup Store.

In Setup Commander, you can use the 'Generic MSI Configuration Wizard' to create a response transform file for these MSIs.

Application Workspace Setup Store Configuration Wizard

The screenshot shows the 'Configure' dialog box with the 'Options' tab selected. The 'Add or Remove Programs' tab is also visible. The configuration options are as follows:
