We've included a configuration wizard which prompts you for several additional options:

The screenshot shows a configuration wizard dialog box titled "Configure" with a close button (X) in the top right corner. Below the title bar, there are two tabs: "Options" (selected) and "Release notes". Under the "Options" tab, there are five checked options, each with a green checkmark icon:

- Remove all Desktop and/or Start Menu shortcuts**
- Suppress all reboots and reboot prompts during the installation**
- Hide Marketing Dialogs**
- Do not check for Updates**
- Lock Preferences**

At the bottom right of the dialog, there are two buttons: a blue "Save" button and a "Cancel" button.
