

## ESET NOD32

Last Modified on 04.16.26

### Setup Commander

If you want to create an application for ESET NOD32, you can download it in the Setup Store. Then, right-click and choose 'Create Application'.

Inside the downloaded file, there is an MSI embedded. We've included a ESET Configuration Wizard which extracts the MSI automatically and prompts you for several additional options.

You can check or uncheck several installation options.
