

Oracle Java Runtime Environment

Last Modified on 04.17.26

If you want to create an application for Oracle Java Runtime Environment, you can download it in the Application Workspace Setup Store.

Application Workspace Setup Store Configuration Wizard

We've included a configuration wizard which prompts you for several additional options:

How to manually extract the MSI

Some versions can't be extracted automatically. To extract the MSI, please follow the next steps:

1. Start the installation.

Recast

2. When the License Agreement screen pops up, look in the following directory for the 'jre1.8.0_xx.msi':

- for Windows XP – `C:\Documents and Settings\Local Settings\Application Data\Oracle\Java\jre1.8.0_xx`
- for Windows 7 / 8 / 8.1 – `C:\Users\AppData\LocalLow\Oracle\Java\jre1.8.0_xx\`
- For the x64 version look in the `C:\Users\AppData\LocalLow\Oracle\Java\jre1.8.0_xx_x64\`

The jre1.8.0_xx MSI file is the one we can use to deploy "Java Runtime Environment Version 8.0 Update xx" by using MSI technology.
