Get an app in the Workspace tab

Last Modified on 04.16.26

To get an app from **Catalog** to **Workspace**, you have to click on the **Get** button displayed on the application, or in the catalog information screen of the app.

Removing an app

If you remove an app from the **Workspace** tab, that was previously get from the **Catalog**, you can get it anytime back by clicking the **Get** button on the app tile in the **Catalog** tab.
