

Zone Licenses

Last Modified on 04.16.26

Install-LiquitZoneLicense

Synopsis

This command is used to install a new license for a zone.

Syntax

```
Install-LiquitZoneLicense  
[-Zone] <Zone[]>  
[-Key] <string>  
[-LiquitContext <LiquitContext>]  
[-WhatIf]  
[-Confirm]  
[<CommonParameters>]
```

Example

The following script installs the license key in the specified zone:

```
$zone =Get-LiquitZone -ID 00000000-0000-0000-0000-000000000000  
Install-LiquitZoneLicense -Zone $zone -Key 00000-00000-00000-00000-00000
```

Update-LiquitZoneLicense

Synopsis

This command refreshes the license of the zone.

Syntax

```
Update-LiquitZoneLicense  
[-Zone] <Zone[]>  
[-LiquitContext <LiquitContext>]  
[-WhatIf]  
[-Confirm]  
[<CommonParameters>]
```

Example

The following script refreshes the license of the specified zone:

```
$zone =Get-LiquitZone -ID 00000000-0000-0000-0000-000000000000  
Update-LiquitZoneLicense -Zone $zone -Key 00000-00000-00000-00000-00000
```

Recast
