Recast

Support Lifecycle

Last Modified on 2026-11-05

All Application Workspace releases have a standard support period of 2 years, starting from the day the feature update is released.

Supported versions receive regular updates to fix issues. Once a version reaches its support end date, it no longer receives any bug fixes.

Version	Support End Date
4.5	August 19, 2028
4.4	December 11, 2027
4.3	April 16, 2027
4.2	June 17, 2026
4.1	September 27, 2025
4.0	November 30, 2024
3.9	June 17, 2024
3.8	September 26, 2023
3.7	November 29, 2022

.NET SUPPORT UPDATE

We want to acknowledge that engineering work to migrate Application Workspace components to .NET 10 will not finish before Microsoft support for .NET 8 ends on November 10, 2026.
As a result, the Application Workspace Agent and Satellite Server will temporarily continue to run on .NET 8 after Microsoft ceases to issue security patches or bug fixes for that version.
We will update this page once a revised release plan is confirmed.
If you have any issues or questions, please contact support@recastsoftware.com.

NOTE: The Application Workspace Server does not rely on .NET 8 and will be fully supported after November 10, 2026.
