

Remove-LiquitAppSettingExcludedItem

Last Modified on 2026-08-07

Removes an Excluded Item from an item included in an App Setting.

Syntax

```
# Via parent IncludedItem entity
Remove-LiquitAppSettingExcludedItem [-Parent] <AppSettingIncludedItem> [-WhatIf] [-Confirm]

# Via parent IncludedItem ID
Remove-LiquitAppSettingExcludedItem [-ID] <Guid> [-WhatIf] [-Confirm]
```

Parameters

Parameter	Type	Position	Mandatory	Pipeline	Description
Parent	AppSettingIncludedItem	0	Yes (set byParentEntity)	Yes (ByValue)	The Included Item whose Excluded Items to remove.
ID	Guid	0	Yes (set byParentId)	Yes (ByValue)	ID of the parent Included Item.

Output: None

Supports: -WhatIf , -Confirm

Examples

```
$setting = Get-LiquitAppSetting -Name 'Outlook Settings'
$includedItem = $setting.IncludedItems[0]
Remove-LiquitAppSettingExcludedItem -Parent $includedItem -Confirm:$false
```
