

VMware Workspace ONE UEM Settings

Last Modified on 2026-08-17

These settings are visible when **VMware Workspace ONE UEM** is enabled as a data source for application migration.

- **Server URL:** ex. <https://as1234.awmdm.com>
- **API Key (Tenant Code):** REST API key from the UEM console (stored encrypted)

To find your API key (Tenant Code) in the Workspace ONE UEM console, navigate to **Groups & Settings > All Settings > System > Advanced > API > REST API**.

- **Username:** Admin account with REST API read access
- **Password:** Admin password (stored encrypted)
- **WS1 App Prefix:** Optional prefix applied to migrated Workspace ONE packages (Default: WS1 -)

Click **Test WS1 Connection** to verify.
