

Application Workspace 4.5.4340

Last Modified on 2026-09-01

Version 4.5 Release Update

Application Workspace [v4.5.4348](#) replaces this version (v4.5.4340) on the [Application Workspace Downloads](#) page, resolving an issue where attempts to launch local folders, network shares, documents, and certain URL-based resources produced an 'Access is denied' error.
