Recast

Icon

Last Modified on 2026-11-04

These options control system tray icon behaviour.

```
{
   "icon": {
      "enabled": true,
      "exit": true,
      "timeout": 30
   }
}
```

Key	Description	Default
enabled	If set to 'false', the tray icon is hidden from the user.	true
exit	If set to 'false', the quit option from the icon's context menu in the system tray is hidden. The quit option will always be disabled if the launcher is enabled and is not allowed to close.	true
timeout	The number of seconds Application Workspace waits for the Windows shell to load in order to display the system tray icon. Note that there is no maximum time limit.	30
