Recast

Events

Last Modified on 2026-11-04

Configure how event data is uploaded to server when the Agent triggers the event.

```
{
   "events": {
      "enabled": true,
      "interval": 30
   }
}
```

Keys	Description	Default
enabled	If set to 'true', event data is uploaded from the agent to the server.	true
interval	The time interval in seconds when the event data is uploaded from the Agent to the server.	30
